## AAA Inspector Notes

Fine art and upscale decorative pieces are found in every part of this property. Large upscale suites and villas with oversize tubs await for your comfort after a day on the golf course. De-stressing is a practiced art form at the world class spa, one of the many pools or at the pink sand beach. The beach club facilities are open during the peak season from late March until end of October. Other interesting activities include cave swimming tours, history and nature excursions. Smoke free premises. 92 units, some two bedrooms and condominiums. 2-5 stories, interior/exterior corridors. Accessibility (Call).

The most regal property in Bermuda and in my mind the one with the most stunning views of the brilliant azure sea, verdant greenery and pink beaches.
